

BE ON ALERT

GOVERNMENT GRANT SCAMS

Scammers have been calling and using Facebook claiming people are eligible to receive a U.S. government grant. In the end, there is no free government grant, but instead, an elaborate scheme to steal your personal information and money.

- Never give out your personal or bank account information.
- Never pay money for a “free” grant.
- Contact the Federal Trade Commission and your bank immediately if you have been a victim and given out information.
